UNIVERSITY OF PENNSYLVANIA - SCHOOL OF MEDICINE
Curriculum Vitae

Date: August 28, 2025

Geoffrey K Aguirre, M.D., Ph.D.

Website: http://gkaguirre.com

email: aguirreg@upenn.edu

Narrative description:

I am a Professor of Neurology at the University of Pennsylvania. My area of clinical specialty is Behavioral Neurology, which encompasses disorders of higher-level cognitive function. My scientific work is in the area of translational vision science. I relate human visual perception to quantitative measurements of the structure and function of the visual pathway. Magnetic resonance imaging (MRI) is an important technique in my studies, often coupled with retinal imaging and psychophysics. A particular focus is how neurologic and ophthalmologic disease alters perception and function along the visual pathway. I am the Vice-Chair for Research for the Department of Neurology. I am active in career development for physician-scientist trainees, and serve as the associate program director of the Hospital of the University of Pennsylvania Neurology Residency, the PI of an NINDS UE5 trainings grant, and co-chair the Burroughs-Wellcome Scientific Advisory Committee for Career Awards for Medical Scientists (CAMS).

Office Address: 3 West Gates
Hospital of the University of Pennsylvania
Philadelphia, PA 19104-4283

Education:

1988-92	B.A. Princeton University (Politics) Thesis: Congressional control of NIH funding priorities during the AIDS crisis
1992-00	M.D. University of Pennsylvania
1993-98	Ph.D. University of Pennsylvania (Neuroscience) Thesis: Neural components of topographical orientation

Postgraduate Training and Fellowship Appointments:

2000-01	Intern in Medicine, Pennsylvania Hospital, Philadelphia
2001-04	Resident in Neurology, Hosp. of the Univ of Pennsylvania, Philadelphia

Faculty Appointments:

2021-present	Professor of Neurology, Department of Neurology University of Pennsylvania School of Medicine
2013-2021	Associate Professor of Neurology, Department of Neurology University of Pennsylvania School of Medicine
2004-2013	Assistant Professor of Neurology, Department of Neurology University of Pennsylvania School of Medicine

University Committee Appointments:

2024-present	Member, Senate Committee on Faculty and the Administration (SCOA) which advises on matters related to the interaction of these bodies
2020-2023	Member, Senate Committee on Academic Freedom and Responsibility (SCAFR) which adjudicates claims of violations of academic freedom
2016-2019	Member, Social Responsibility Advisory Committee (SRAC) which advises the University Trustees on shareholder proxy votes
2015-present	Associate Director of the Center for Neuroscience and Society
2019-present	Director of the Reproducible Image Analysis Core of the Vision Research Center P30

Departmental Appointments:

2025-present	Vice-Chair for Research, Department of Neurology
2024-present	Chair, Departmental Committee on Appointments and Promotions (DCOAP)
2022-2024	Vice-chair, Departmental Committee on Appointments and Promotions (DCOAP)
2015-2025	Associate Director, Neurology Residency Program

Specialty Certification:

2005-present	American Board of Neurology

Licensure: Pennsylvania

Awards, Honors and Membership in Honorary and National Societies:

2023	Perelman School of Medicine, Graduate Medical Education Mentorship Award
2020	Research to Prevent Blindness / Lions Clubs International Foundation Low Vision Research Award
2018	Elected as a Fellow of Optica (formerly Optical Society of America)
2018	Resident's Award for Excellence in Teaching
2013	Elected as a Fellow of the Philadelphia College of Physicians
2012	Elected as a Fellow of the the American Neurological Association
2011	Appointed Senior Consultant to the MacArthur Foundation Research Network on Law and Neuroscience

2008	Member of the Neuroimaging Steering Committee of the Hastings Center for Bioethics (2008-2014)
2004	Burroughs Wellcome Fund Career Award for Medical Scientists
2004	Samuel Zeritsky award for excellence in research (Univ. of Penn)
2004	Penn Pearls award for excellence in medical student education (Univ. of Penn)
2001	Intern of the Year (Pennsylvania Hospital)
2001	Thomas Bond Prize for the best research by a house officer (Pennsylvania Hospital)
2000	Eric Corey Raps Memorial Prize for excellence in clinical neurology (Univ. of Penn)
1999	World Technology Award Finalist in Health and Medicine
1998	Louis B. Flexner prize for the best dissertation research in the neurosciences (Univ. of Penn)
1998	G. Milton Shy Award for the best essay in clinical neurology (American Academy of Neurology)

Memberships in Professional and Scientific Societies:

National Societies and Organizations (active):

American Neurological Association
American Academy of Neurology
Vision Sciences Society — Presentation review committee
Optica (formerly Optical Society of America):
- vice-Chair of the vision technical group (2017-2019)
- member of the Edgar D. Tillyer Award Committee (2019 - 2021)
- organizer of the Fall Vision Meeting (2017-2022)

National Societies and Organizations (currently inactive):

Organization for Human Brain Mapping
Cognitive Neuroscience Society
Society for Neuroscience

Editorial / Board / Review Positions:

2025 (upcoming)	Chair NIH Special emphasis review panel ZRG1 MBBC-P: Research Training Program Review
2025	Member NIH Special emphasis review panel ZRG1 NV-G: career development vision science
2024-2025	Member Editorial Board, NIH Director's Transformative Research Award Review
2024-	Co-Chair, advisory committee, Burroughs Wellcome Fund, Career Awards for Medical Scientists
2020-2024	Member of advisory committee, Burroughs Wellcome Fund, Career Awards for Medical Scientists
2022-2024	Chair, Neuroscience of Basic Visual Processes (NBVP) NIH study section
2018-2024	Member, NBVP (formerly SPC) NIH study section

2022	Ad hoc reviewer for the National Science Foundation, Perception, Action, and Cognition program
2022	Ad hoc reviewer for Special Emphasis Panel 2022/08 RRDS (Department of Veterans Health, Rehabilitation Research & Development Service)
2020	Ad hoc member of the NIMH Board of Scientific Counselors
2018-2022	Editorial Board, Journal of Vision
2009-2012	Editorial Board, NeuroImage
2004-2009	Associate Editor, Neuroscience Letters

Major Teaching and Clinical Responsibilities at the University of Pennsylvania and Affiliated Hospitals:

1. Consult attending at the Hospital of the University of Pennsylvania 3-4 weeks/year
2. Residents clinic attending 20 sessions / year
3. Member of the division of Behavioral Neurology and member of the Alzheimer's disease and anti-amyloid therapy specialist groups

Additional Teaching Roles at the University of Pennsylvania:

1. Member Neuroscience Graduate Group
2. Member Psychology Graduate Group
3. Lecturer in the annual Neurology Board review course
4. Lecturer in the Brain and Behavior medical school course
5. Lecturer in the Consult Liaison Psychiatry Fellowship Didactic series

Lectures by Invitation since 2013: (*upcoming)

May, 2025	"Photoreceptors, Facebook, and sensory alterations in migraine", Vision Sciences Society Annual Meeting, St. Petersburg Florida.
August, 2024	"Approaches and challenges to measuring cone-specific responses in clinical populations", European Conference on Visual Perception, Aberdeen Scotland.
June, 2024	"Neural mechanisms of photophobia", Centre for Neuroscience Studies at Queen's University, Canada.
September, 2023	"Perception and discomfort from melanopsin stimulation", Rank Prize Symposium, Grasmere, Cumbria, UK.
April, 2023	"Perception and pain from melanopsin", Neurology Grand Rounds, University of Wisconsin, Madison.
January, 2023	"Perception and pain from melanopsin", Neurology Grand Rounds, New York Medical College, NY.
October, 2022	"Perception and pain from melanopsin", Perception and Action Seminar Series, Brown University, Providence, Rhode Island.
Jan, 2022	"Human melanopsin function", Grand Rounds, University of Illinois Chicago.
May, 2021	"What to expect when you are expecting an experiment", Symposium on Open Science, Vision Sciences Society Annual, Virtual Meeting.

May, 2021 "Retinotopic mapping as a methodological engine of vision science fMRI", Vision Sciences Society Annual, Virtual Meeting.

January, 2021 "Research in Residency", American Physician Scientist Association, Virtual conference

July, 2020 "Vision research on the Flywheel platform", Digital Workflow in Imaging Research Symposium, School of Medicine and Munich School of Bioengineering, Munich, Germany (canceled due to Covid-19)

June, 2020 "Perceptual, pupil, and visual cortex responses to melanopsin stimulation in humans", Virtual Neurology Grand Rounds, New York University School of Medicine, NY, NY

April, 2020 "Perceptual, pupil, and visual cortex responses to melanopsin stimulation in humans", University of Helsinki, Biomedicum Helsinki Seminars, Helsinki, Finland (cancelled due to Covid-19)

March, 2020 "Individual differences in visual pathway structure and function". Medical College of Wisconsin's Distinguished Lecture Series, Milwaukee (cancelled due to Covid-19)

February, 2020 "Perceptual, pupil, and visual cortex responses to melanopsin stimulation in humans", University of Iowa, Iowa City, Iowa

January, 2020 Invited participant, National Eye Institute Audacious Goals Initiative for Regenerative Medicine Understanding Human Retina Biology and Perception Workshop, Bethesda, Maryland

February, 2019 "Perceptual, pupil, and visual cortex responses to melanopsin stimulation in humans", Emory University, Atlanta.

December, 2018 "Post-retinal structure and function in human blindness", Visual Function Acquisition and Restoration Workshop, Hebrew University, Jerusalem, Israel.

May, 2018 "Variation in Temporal Stimulus Integration Across Visual Cortex", Invited Symposium, Vision Sciences Society Annual Meeting, St. Petersburg Florida.

April, 2018 "Neuroscience in the Courtroom", Haverford College, Haverford, Pennsylvania.

February, 2018 "Scientific aspects of afferent visual dysfunction in neuro-degenerative disease", North American Neuo-Ophthalmologic Society (NANOS) annual meeting, Kailua, Hawaii.

October 2017 Served as a commentator on the topic of "Protecting Autonomy in the Era of Neural Control" at the Law and STEM Young Scholars Forum, University of Pennsylvania

August, 2017 "Perceptual, pupil, and visual cortex responses to melanopsin stimulation in humans", Institute for Ophthalmic Research, University of Tübingen Medical Centre, Tübingen, Germany

August, 2017 "Temporal integration of visual information across visual cortex", European Conference on Visual Perception (ECVP), Berlin, Germany

May, 2017 "Post-retinal structure and function in human blindness", VSS@ARVO invited symposium, The Association for Research in Vision and Ophthalmology Annual Meeting, Baltimore, MD

April, 2017 "Scientific aspects of afferent visual dysfunction in neuro-degenerative disease", American Academy of Neurology annual meeting, Boston, MA

Feb, 2017 "Measuring human melanopsin function", Neurology Grand Rounds, Johns Hopkins University, Baltimore, MD

Feb, 2017 "Measuring human melanopsin function", Neurology Grand Rounds, University of Maryland, Baltimore, MD

Dec, 2016 "Measuring human melanopsin function", Ophthalmology Grand Rounds, University of Pennsylvania, Philadelphia

Dec, 2016 "Melanopsin: From the dawn of vision to the fear of light", Philadelphia Neurological Society, Philadelphia

Nov, 2016 "Measuring human melanopsin function", Neuroscience Seminar Series, NYU, New York

Sept, 2016 "Measuring human melanopsin function", NextGenVis Course on Computational Neuroimaging, York University, York UK

Sept, 2016 "Measuring human melanopsin function", Visual Brain Core seminar series, University of Alabama at Birmingham

Sept, 2016 "Pre-register, please. Measure with care. Model with math. Replicate, share", Keynote Address, Neuroscience Graduate Group Student Retreat, University of Pennsylvania, Philadelphia

Feb, 2016 "Measuring human melanopsin function", Department of Ophthalmology and Visual Sciences, University of Illinois at Chicago

Jan, 2016 "An introduction to fMRI and functional correlation", Doctoral College "Imaging the Mind" Winter-School, University of Salzburg, Austria

Nov, 2015 "Measuring human melanopsin function", Ophthalmology Dept., McGill University, Montreal, Canada

Sept, 2015 "Neuroimaging of the visual system without vision", American Society of Neurophysiological Monitoring, Fall Meeting, Philadelphia, PA

June, 2015 Faculty-at-large member for the NINDS/AUPN/ANA/CNS Symposium on Combining Clinical and Research Careers, Washington, DC

June, 2015 "Neuroscience for legal decision makers", Illinois Advanced Judicial Academy, *Science in the Courtroom*, Champaign, IL

May, 2015 "The elusive neuroimaging marker of mild traumatic brain injury", Traumatic Brain Injury Interdisciplinary Symposium, Franklin Institute, Philadelphia, PA

March, 2014 "Neuroimaging 2.0", Hall Center for Law and Health Event/Indiana Health Law Review Symposium: Neuroscience and Law: Injury, Capacity and Illness, Indianapolis, IN

Feb, 2014 "Melanopsin and S-cone responses in the human pupil and brain", Vision Center Annual Retreat, University of Pennsylvania, Philadelphia PA

Feb, 2014 "Neurons to Neuroimaging", MacArthur Foundation Colloquium on Law, Neuroscience and Criminal Justice, Nashville, TN

Nov, 2013 "Measuring Visual Cortex without Vision", Oxford University, Oxford, UK

June, 2013 "Measuring Visual Cortex without Vision", Optical Society of America Fall Vision Meeting, Houston TX

June, 2013 "Inferring neuronal tuning from fMRI: adaptation and pattern information", Advanced fMRI Course, Organization for Human Brain Mapping Annual Meeting, Seattle, Washington

April, 2013 "Measuring Visual Cortex without Vision", Princeton University Neuroimaging Group, Princeton NJ

April, 2013 “Primer of Behavioral Neurology”, American Academy of Neurology, New Orleans, LA
